BEFORE YOU BOOK

What it asks of you

No nicotine

Before and after surgery. Cigarettes, vapes, patches and gum all count.

Someone at home

For the first fortnight.

A little set aside

For a changed flight or an extra night.

A hospital health check

Weight, blood pressure, diabetes, clotting.

RECOVERY

Day by day

Days 1–2

Two nights in hospital. Tight and sore across the chest. A supportive bra goes on at the start and stays on.

Days 3–7

Swelling settles slowly. Bra day and night. No lifting above shoulder height and no stretching upward.

Days 8–10 · flying home

Wound check and clearance before you fly. Aisle seat, compression, walk hourly.

Weeks 2–6

Desk work at about two weeks. No chest or arm loading until six. Scars stay firm and pink for months, then fade over a year or more.

YOUR TRIP

From take-off to your front door

01 *Off to Bangkok*

We help book your flights, and a driver meets you when you land.

02 *Land and settle in*

A quiet night at your hotel, close to the hospital.

03 *Meet your surgeon*

Face to face, with time for every question.

04 *Surgery day*

Your coordinator is a message away all day.

05 *Nights in hospital*

Nurses on hand, day and night.

06 *Back to the hotel*

A caregiver with you for your first three days.

07 *First check-up*

Your surgeon checks how you're healing.

08 *Cleared to fly*

You fly when your surgeon says you're ready.

09 *Flying home*

If your date moves, we help move your flight.

10 *Home again*

Your doctor in Bangkok is still a message away.

THE RISKS

In full, before you decide

A lift trades scar for shape, and it does not add volume. The scars sit around the areola and usually run downward and along the fold. They are permanent, and they are why this is a larger decision than it first looks.

Unhappy with the result

Asymmetry, a nipple position that is not quite even, or a shape that settles differently to what you pictured. The scars are part of the result, not merely a side effect.

A complication

Changes to nipple sensation, which can be permanent. Delayed healing where the scars meet is the commonest site. Infection and bleeding are less common.

The anaesthetic

General anaesthetic, two to three hours, with an anaesthetist present throughout.

Most of it is avoidable. Flying before you are cleared, lifting too early, going back to nicotine, or missing a check.

Every step, arranged

You focus on your surgery and your recovery. We arrange everything around it, from your first question to your last check-in.

Your flights

We help you book them around your surgery date, and help move them if recovery runs long.

Your hotel

Close to the hospital, from options we send you. A companion can share your room.

Your visa, if you need one

Australian passports don't currently need one. For others, we get the hospital's letter.

Every transfer

Airport, hotel and hospital, both ways, arranged by the hospital's team.

A caregiver at your hotel

With you for your first three days out of hospital.

Garments and massage

Compression garments and lymphatic drainage massage, in your price.

A checklist before you fly

What to pack, and what to stop taking and when, from the hospital and surgeon.

Your coordinator

One number to call, from the day you land to the day you fly home.

Your doctor, after you're home

Still a message away once you're back in Australia.

One written price

Everything that's included, in one number, before you pay anything.

Why go through us

The surgeon's registration number, before any deposit

In writing. The register is public, so you can check it yourself.

One price, in writing, before you pay

Everything it includes, said up front.

Your deposit back in full if the surgeon says no

If you're found not to be suitable, it all comes back.

One team, start to finish

One coordinator throughout, and your doctor after you're home.

Your next step is a written quote

Tell us what you have in mind. A person reads it and replies with one price, in writing. Nothing is booked and nothing is payable today.
