

CROSS-BORDER COSMETICS

Your guide to
Eyelid surgery
Blepharoplasty

Prepared for you

AT A GLANCE

What to expect

Skin, and sometimes a little fat, is removed from the upper lid, the lower lid, or both. Usually under local anaesthetic with sedation, and it takes an hour to ninety minutes.

HOSPITAL STAY

Day surgery

TIME IN BANGKOK

8 days

BACK TO DESK

WORK

10 days

ANAESTHETIC

**Local or
general**

PRICE RANGE

AUD 3,100–8,100

 Day surgery

 8 nights

 Flight

The price changes with the hospital you choose.
The care you get doesn't.

INSIDE EVERY PRICE

- ✓ Surgeon and anaesthetist
- ✓ Compression garments
- ✓ Lymphatic drainage massage
- ✓ Every transfer
- ✓ Three days of a caregiver

BEFORE YOU BOOK

What it asks of you

No nicotine

Before and after surgery. Cigarettes, vapes, patches and gum all count.

Someone at home

For the first fortnight.

A little set aside

For a changed flight or an extra night.

A hospital health check

Weight, blood pressure, diabetes, clotting.

RECOVERY

Day by day

Days 1–2

Home the same day. Cold compresses on and off, head propped up, and your vision is blurry from the ointment rather than from anything wrong.

Days 3–7

Bruising peaks around day three and then turns yellow. Stitches out at about a week. You will not want to be seen.

Day 8 · flying home

Reviewed and cleared before you fly. Take lubricating drops on board — cabin air is unkind to eyes this early.

Weeks 2–6

Most people are presentable at two weeks with a little concealer. The fine scar in the upper lid crease keeps fading for six months.

YOUR TRIP

From take-off to your front door

01 *Off to Bangkok*

We help book your flights, and a driver meets you when you land.

02 *Land and settle in*

A quiet night at your hotel, close to the hospital.

03 *Meet your surgeon*

Face to face, with time for every question.

04 *Surgery day*

Your coordinator is a message away all day.

05 *Nights in hospital*

Nurses on hand, day and night.

06 *Back to the hotel*

A caregiver with you for your first three days.

07 *First check-up*

Your surgeon checks how you're healing.

08 *Cleared to fly*

You fly when your surgeon says you're ready.

09 *Flying home*

If your date moves, we help move your flight.

10 *Home again*

Your doctor in Bangkok is still a message away.

THE RISKS

In full, before you decide

It changes how tired you look, not how old you are. It does nothing for crow's feet, nothing for the position of your brow and nothing for the texture of the skin. A surgeon who tells you otherwise is selling you the wrong operation.

Dry, gritty eyes

The commonest complaint, and it can last weeks. Most settle with drops. Anyone who already has dry eyes should say so before, not after.

Unhappy with the result

One lid healing differently from the other, too much skin taken or too little. Both are correctable, but not for months.

The rare one worth naming

Bleeding behind the eye can threaten vision. It is very rare, it happens in the first day, and it is the reason you do not fly home the next morning.

The anaesthetic

Usually local with sedation rather than a general. An anaesthetist is present either way.

Most of it is avoidable. Flying before you are cleared, lifting too early, going back to nicotine, or missing a check.

Every step, arranged

You focus on your surgery and your recovery. We arrange everything around it, from your first question to your last check-in.

Your flights

We help you book them around your surgery date, and help move them if recovery runs long.

Your hotel

Close to the hospital, from options we send you. A companion can share your room.

Your visa, if you need one

Australian passports don't currently need one. For others, we get the hospital's letter.

Every transfer

Airport, hotel and hospital, both ways, arranged by the hospital's team.

A caregiver at your hotel

With you for your first three days out of hospital.

Garments and massage

Compression garments and lymphatic drainage massage, in your price.

A checklist before you fly

What to pack, and what to stop taking and when, from the hospital and surgeon.

Your coordinator

One number to call, from the day you land to the day you fly home.

Your doctor, after you're home

Still a message away once you're back in Australia.

One written price

Everything that's included, in one number, before you pay anything.

Why go through us

The surgeon's registration number, before any deposit

In writing. The register is public, so you can check it yourself.

One price, in writing, before you pay

Everything it includes, said up front.

Your deposit back in full if the surgeon says no

If you're found not to be suitable, it all comes back.

One team, start to finish

One coordinator throughout, and your doctor after you're home.

Your next step is a written quote

Tell us what you have in mind. A person reads it and replies with one price, in writing. Nothing is booked and nothing is payable today.
