*Your guide to*

# Liposuction

*Lipoplasty*

*Prepared for you*

## AT A GLANCE

# What to expect

Fat is removed from specific areas through small incisions using a fine cannula. Under general anaesthetic, and the length depends entirely on how many areas are treated.

## BEFORE YOU BOOK

# What it asks of you

### No nicotine

Before and after surgery. Cigarettes, vapes, patches and gum all count.

### Someone at home

For the first fortnight.

### A little set aside

For a changed flight or an extra night.

### A hospital health check

Weight, blood pressure, diabetes, clotting.

## RECOVERY

# Day by day

### Days 1–2

Usually one night. Bruised and sore — more like a heavy training injury than a wound. Compression garment on immediately.

### Days 3–7

Swelling and bruising peak, then turn. Garment day and night. Some drainage from the small incisions in the first days is normal.

### Days 8–9 · flying home

Cleared before you fly. Compression stays on, aisle seat, walk the cabin hourly.

### Weeks 2–6

Desk work at one to two weeks. Garment for six. The final shape takes three to six months to appear, which is longer than most people expect.

## YOUR TRIP

# From take-off to your front door

### 01 *Off to Bangkok*

We help book your flights, and a driver meets you when you land.

### 02 *Land and settle in*

A quiet night at your hotel, close to the hospital.

### 03 *Meet your surgeon*

Face to face, with time for every question.

### 04 *Surgery day*

Your coordinator is a message away all day.

### 05 *Nights in hospital*

Nurses on hand, day and night.

### 06 *Back to the hotel*

A caregiver with you for your first three days.

### 07 *First check-up*

Your surgeon checks how you're healing.

### 08 *Cleared to fly*

You fly when your surgeon says you're ready.

### 09 *Flying home*

If your date moves, we help move your flight.

### 10 *Home again*

Your doctor in Bangkok is still a message away.

## THE RISKS

# In full, before you decide

**It is not a weight-loss operation and it will not tighten loose skin.** It changes shape in a stable body. Where skin is already loose, liposuction alone usually makes that more obvious rather than less.

### Unhappy with the result

Contour irregularity — dents, ripples or unevenness — is the commonest disappointment, and it is harder to correct than the original operation was to do.

### A complication

Prolonged swelling, seroma, and numbness over the treated area that can take months to resolve. Removing large volumes in one sitting raises every risk, which is why the amount is capped.

### The anaesthetic

General anaesthetic with an anaesthetist present throughout. Length depends on the number of areas treated.

**Most of it is avoidable.** Flying before you are cleared, lifting too early, going back to nicotine, or missing a check.

# Every step, arranged

You focus on your surgery and your recovery. We arrange everything around it, from your first question to your last check-in.

## Your flights

We help you book them around your surgery date, and help move them if recovery runs long.

## Your hotel

Close to the hospital, from options we send you. A companion can share your room.

## Your visa, if you need one

Australian passports don't currently need one. For others, we get the hospital's letter.

## Every transfer

Airport, hotel and hospital, both ways, arranged by the hospital's team.

## A caregiver at your hotel

With you for your first three days out of hospital.

## Garments and massage

Compression garments and lymphatic drainage massage, in your price.

## A checklist before you fly

What to pack, and what to stop taking and when, from the hospital and surgeon.

## Your coordinator

One number to call, from the day you land to the day you fly home.

## Your doctor, after you're home

Still a message away once you're back in Australia.

## One written price

Everything that's included, in one number, before you pay anything.

## Why go through us

### **The surgeon's registration number, before any deposit**

In writing. The register is public, so you can check it yourself.

### **One price, in writing, before you pay**

Everything it includes, said up front.

### **Your deposit back in full if the surgeon says no**

If you're found not to be suitable, it all comes back.

### **One team, start to finish**

One coordinator throughout, and your doctor after you're home.

# Your next step is a written quote

Tell us what you have in mind. A person reads it and replies with one price, in writing. Nothing is booked and nothing is payable today.
