

CROSS-BORDER COSMETICS

Your guide to

Lower body lift

Belt lipectomy

Prepared for you

AT A GLANCE

What to expect

A tummy tuck (abdominoplasty) carried all the way round the body, lifting the buttocks and outer thighs too. Four to six hours under general anaesthetic, with drains.

HOSPITAL STAY

4 nights

TIME IN BANGKOK

12 days

BACK TO DESK

WORK

4–6 weeks

ANAESTHETIC

General

PRICE RANGE

AUD 19,600–21,800

4 nights

8 nights

Flight

The price changes with the hospital you choose. The care you get doesn't.

INSIDE EVERY PRICE

Surgeon and anaesthetist

Compression garments

Lymphatic drainage
massage

Every transfer

Three days of a caregiver

BEFORE YOU BOOK

What it asks of you

No nicotine

Before and after surgery. Cigarettes, vapes, patches and gum all count.

Someone at home

For the first fortnight.

A little set aside

For a changed flight or an extra night.

A hospital health check

Weight, blood pressure, diabetes, clotting.

RECOVERY

Day by day

Days 1–4

Up to four nights in hospital. You are up and walking the first day, bent slightly forward, and that is the point — it is what keeps clots away.

Days 5–10

Drains stay in longer than you would like, often past a week. Moving between bed and chair is the whole job. Nothing lifted, nothing reached for.

Days 11–12 · flying home

Reviewed and cleared before you fly, and this is the procedure most likely to need the flight moved. Aisle seat, up every hour, compression on.

Weeks 2–6

Desk work at four to six weeks, and that is a real four to six weeks. Fluid keeps collecting for a month or more, and the scar takes a full year to settle.

YOUR TRIP

From take-off to your front door

01 *Off to Bangkok*

We help book your flights, and a driver meets you when you land.

02 *Land and settle in*

A quiet night at your hotel, close to the hospital.

03 *Meet your surgeon*

Face to face, with time for every question.

04 *Surgery day*

Your coordinator is a message away all day.

05 *Nights in hospital*

Nurses on hand, day and night.

06 *Back to the hotel*

A caregiver with you for your first three days.

07 *First check-up*

Your surgeon checks how you're healing.

08 *Cleared to fly*

You fly when your surgeon says you're ready.

09 *Flying home*

If your date moves, we help move your flight.

10 *Home again*

Your doctor in Bangkok is still a message away.

In full, before you decide

This is major surgery, not cosmetic tidying. It is the largest operation we coordinate, the scar goes all the way round, and it asks more of your body than anything else on this site. It is also the one where being weight-stable and having someone with you matters most.

Unhappy with the result

A scar that runs the whole way round, and it is very hard to hide entirely. Some asymmetry is usual. Revision is common enough that it is worth budgeting for rather than being shocked by.

A complication

Seroma — fluid collecting under the skin — happens in a large minority and often needs draining more than once. Wound healing problems, particularly where the scar meets at the hips. Blood loss large enough to need a transfusion. Clots in the legs or lungs.

It is not a weight-loss operation

It removes skin and the fat attached to it. If your weight is still moving, the result moves with it, and most surgeons will ask you to be stable for six months first.

The anaesthetic

General anaesthetic, four to six hours, with an anaesthetist present throughout. A long anaesthetic carries more risk than a short one and that is part of why the nights in hospital are longer.

Most of it is avoidable. Flying before you are cleared, lifting too early, going back to nicotine, or missing a check.

Every step, arranged

You focus on your surgery and your recovery. We arrange everything around it, from your first question to your last check-in.

Your flights

We help you book them around your surgery date, and help move them if recovery runs long.

Your hotel

Close to the hospital, from options we send you. A companion can share your room.

Your visa, if you need one

Australian passports don't currently need one. For others, we get the hospital's letter.

Every transfer

Airport, hotel and hospital, both ways, arranged by the hospital's team.

A caregiver at your hotel

With you for your first three days out of hospital.

Garments and massage

Compression garments and lymphatic drainage massage, in your price.

A checklist before you fly

What to pack, and what to stop taking and when, from the hospital and surgeon.

Your coordinator

One number to call, from the day you land to the day you fly home.

Your doctor, after you're home

Still a message away once you're back in Australia.

One written price

Everything that's included, in one number, before you pay anything.

Why go through us

The surgeon's registration number, before any deposit

In writing. The register is public, so you can check it yourself.

One price, in writing, before you pay

Everything it includes, said up front.

Your deposit back in full if the surgeon says no

If you're found not to be suitable, it all comes back.

One team, start to finish

One coordinator throughout, and your doctor after you're home.

Your next step is a written quote

Tell us what you have in mind. A person reads it and replies with one price, in writing. Nothing is booked and nothing is payable today.
