AT A GLANCE

What to expect

The two muscle bands down the front of the neck are tightened and loose skin is removed, through small incisions under the chin and behind the ears. General anaesthetic, two to three hours.

BEFORE YOU BOOK

What it asks of you

No nicotine

Before and after surgery. Cigarettes, vapes, patches and gum all count.

Someone at home

For the first fortnight.

A little set aside

For a changed flight or an extra night.

A hospital health check

Weight, blood pressure, diabetes, clotting.

RECOVERY

Day by day

Days 1–2

Two nights in hospital. A snug garment under the chin from the moment you wake, and it stays on almost constantly for the first week. Tight rather than painful.

Days 3–7

Swelling and bruising move down into the neck and chest, which looks alarming and is normal. Stitches start coming out towards the end of the week.

Days 8–10 · flying home

Reviewed and cleared before you fly. Garment on for the flight, aisle seat, up every hour.

Weeks 2–6

Desk work at two to three weeks. Numbness under the chin and around the ears is usual and can take months to go. The final line of the neck is not settled until around six months.

YOUR TRIP

From take-off to your front door

01 *Off to Bangkok*

We help book your flights, and a driver meets you when you land.

02 *Land and settle in*

A quiet night at your hotel, close to the hospital.

03 *Meet your surgeon*

Face to face, with time for every question.

04 *Surgery day*

Your coordinator is a message away all day.

05 *Nights in hospital*

Nurses on hand, day and night.

06 *Back to the hotel*

A caregiver with you for your first three days.

07 *First check-up*

Your surgeon checks how you're healing.

08 *Cleared to fly*

You fly when your surgeon says you're ready.

09 *Flying home*

If your date moves, we help move your flight.

10 *Home again*

Your doctor in Bangkok is still a message away.

In full, before you decide

A neck lift does not fix a jawline that has dropped. If the real problem is the lower face, doing the neck alone leaves you looking slightly odd — and a good surgeon will tell you which of the two you actually need, even when it is the more expensive answer.

A collection of blood under the skin

The commonest early problem in neck surgery. It shows up in the first day, which is why you stay a night, and it is more likely if your blood pressure is not well controlled.

Nerve injury

The nerve that moves the corner of the mouth runs through this area. Weakness on one side of the smile is usually temporary, occasionally not.

Unhappy with the result

Bands that come back, a scar behind the ear that widens, or skin that loosens again sooner than you hoped.

The anaesthetic

General anaesthetic, two to three hours, with an anaesthetist present throughout.

Most of it is avoidable. Flying before you are cleared, lifting too early, going back to nicotine, or missing a check.

Every step, arranged

You focus on your surgery and your recovery. We arrange everything around it, from your first question to your last check-in.

Your flights

We help you book them around your surgery date, and help move them if recovery runs long.

Your hotel

Close to the hospital, from options we send you. A companion can share your room.

Your visa, if you need one

Australian passports don't currently need one. For others, we get the hospital's letter.

Every transfer

Airport, hotel and hospital, both ways, arranged by the hospital's team.

A caregiver at your hotel

With you for your first three days out of hospital.

Garments and massage

Compression garments and lymphatic drainage massage, in your price.

A checklist before you fly

What to pack, and what to stop taking and when, from the hospital and surgeon.

Your coordinator

One number to call, from the day you land to the day you fly home.

Your doctor, after you're home

Still a message away once you're back in Australia.

One written price

Everything that's included, in one number, before you pay anything.

Why go through us

The surgeon's registration number, before any deposit

In writing. The register is public, so you can check it yourself.

One price, in writing, before you pay

Everything it includes, said up front.

Your deposit back in full if the surgeon says no

If you're found not to be suitable, it all comes back.

One team, start to finish

One coordinator throughout, and your doctor after you're home.

Your next step is a written quote

Tell us what you have in mind. A person reads it and replies with one price, in writing. Nothing is booked and nothing is payable today.
