Nose surgery
Rhinoplasty

Prepared for you

AT A GLANCE

What to expect

The bone and cartilage under the skin are reshaped, through incisions inside the nostrils or across the base of the nose. Commonly called a nose job. Under general anaesthetic, two to three hours.

BEFORE YOU BOOK

What it asks of you

No nicotine

Before and after surgery. Cigarettes, vapes, patches and gum all count.

Someone at home

For the first fortnight.

A little set aside

For a changed flight or an extra night.

A hospital health check

Weight, blood pressure, diabetes, clotting.

RECOVERY

Day by day

Days 1–2

Two nights in hospital. A splint on the outside and supports inside. You will breathe through your mouth, which is as annoying as it sounds and rarely actually painful.

Days 3–7

The internal supports usually come out early in this window and breathing improves sharply. Bruising around the eyes peaks about day three, then turns.

Days 8–10 · flying home

The outside splint comes off and the nose is reviewed before you fly. You will still look swollen — plan to see nobody for a fortnight.

Weeks 2–6

Desk work at about ten days. Nothing resting on the bridge, so no glasses, and no contact sport until six weeks. The shape keeps refining for a full year, and the tip settles last.

YOUR TRIP

From take-off to your front door

01 *Off to Bangkok*

We help book your flights, and a driver meets you when you land.

02 *Land and settle in*

A quiet night at your hotel, close to the hospital.

03 *Meet your surgeon*

Face to face, with time for every question.

04 *Surgery day*

Your coordinator is a message away all day.

05 *Nights in hospital*

Nurses on hand, day and night.

06 *Back to the hotel*

A caregiver with you for your first three days.

07 *First check-up*

Your surgeon checks how you're healing.

08 *Cleared to fly*

You fly when your surgeon says you're ready.

09 *Flying home*

If your date moves, we help move your flight.

10 *Home again*

Your doctor in Bangkok is still a message away.

THE RISKS

In full, before you decide

This is the hardest operation on this list to get right, and the one most often revised.

Swelling hides the result for months and the final shape is not settled for a year — anyone offering you a verdict at six weeks is guessing.

Unhappy with the result

The commonest disappointment of any procedure here. A tip fuller than you pictured, a small asymmetry, or a bridge that reads differently in photographs than in the mirror. Revision is possible, but not for at least a year.

A complication

Difficulty breathing through the nose if the internal structure is over-reduced, numbness at the tip that can take months to resolve, and nosebleeds in the first fortnight. Infection is uncommon.

The anaesthetic

General anaesthetic, two to three hours, with an anaesthetist present throughout.

Most of it is avoidable. Flying before you are cleared, lifting too early, going back to nicotine, or missing a check.

Every step, arranged

You focus on your surgery and your recovery. We arrange everything around it, from your first question to your last check-in.

Your flights

We help you book them around your surgery date, and help move them if recovery runs long.

Your hotel

Close to the hospital, from options we send you. A companion can share your room.

Your visa, if you need one

Australian passports don't currently need one. For others, we get the hospital's letter.

Every transfer

Airport, hotel and hospital, both ways, arranged by the hospital's team.

A caregiver at your hotel

With you for your first three days out of hospital.

Garments and massage

Compression garments and lymphatic drainage massage, in your price.

A checklist before you fly

What to pack, and what to stop taking and when, from the hospital and surgeon.

Your coordinator

One number to call, from the day you land to the day you fly home.

Your doctor, after you're home

Still a message away once you're back in Australia.

One written price

Everything that's included, in one number, before you pay anything.

Why go through us

The surgeon's registration number, before any deposit

In writing. The register is public, so you can check it yourself.

One price, in writing, before you pay

Everything it includes, said up front.

Your deposit back in full if the surgeon says no

If you're found not to be suitable, it all comes back.

One team, start to finish

One coordinator throughout, and your doctor after you're home.

Your next step is a written quote

Tell us what you have in mind. A person reads it and replies with one price, in writing. Nothing is booked and nothing is payable today.
