BEFORE YOU BOOK

What it asks of you

No nicotine

Before and after surgery. Cigarettes, vapes, patches and gum all count.

Someone at home

For the first fortnight.

A little set aside

For a changed flight or an extra night.

A hospital health check

Weight, blood pressure, diabetes, clotting.

RECOVERY

Day by day

Days 1–2

Two nights in hospital, drains in. You will be walking, bent forward, the same day — that is deliberate, and it lowers your clot risk.

Days 3–7

Drains usually out. Binder day and night. You will not stand fully upright yet and should not try to.

Days 8–10 · flying home

Cleared before you fly, and this one is timed rather than booked for convenience. Aisle seat, compression, walk hourly.

Weeks 2–6

Desk work at three to four weeks. No lifting or core work until six. The scar stays firm and red for months before it fades.

THE RISKS

In full, before you decide

The scar is permanent and it is long — hip to hip. Every honest surgeon puts that in front of you before anything else, and so do we.

Unhappy with the result

The scar itself is the main one — long, low, permanent. Also residual looseness, or a belly button that sits or looks different to how you imagined.

A complication

Seroma, a collection of fluid under the skin, is the commonest. Also wound separation and infection. Abdominoplasty carries the highest clot risk here, which is why your flight home is timed.

The anaesthetic

General anaesthetic, two to three hours, with an anaesthetist present throughout.

Most of it is avoidable. Flying before you are cleared, lifting too early, going back to nicotine, or missing a check.

Every step, arranged

You focus on your surgery and your recovery. We arrange everything around it, from your first question to your last check-in.

Your flights

We help you book them around your surgery date, and help move them if recovery runs long.

Your hotel

Close to the hospital, from options we send you. A companion can share your room.

Your visa, if you need one

Australian passports don't currently need one. For others, we get the hospital's letter.

Every transfer

A caregiver at your hotel

With you for your first three days out of hospital.
